 2. Managing Suspect Contexts & Profiles
 3. Link Analysis Graph Masterclass
 4. CCTV & DVR Surveillance Forensics Operations
 5. Generating & Exporting Official Investigation Dossiers
-

1. Workstation Navigation Overview

The workstation interface is partitioned into three functional areas:

- Left Navigation Sidebar: Access to all 15 operational modules (Overview, Cases, Person Profiles, Fusion, Link Analysis Graph, Communications, Financial, Blockchain, OSINT, DVR, Timeline, Analytics, Entity Resolution, Dossier, Audit).
 - Top Context Header: Displays current active Case ID (TRX-2026-017), Subject Name (Arjun Sharma), Target Role (Primary Subject), Global Search Bar, and Subject Context Switcher Dropdown.
 - Main Content Area: Active analytical view with responsive dark workstation theme (#000000 / #090a0f).
-

2. Managing Suspect Contexts & Profiles

How to Switch Target Subjects:

1. Locate the Person Dropdown in the top header.
2. Select any target profile:
 - ■ Arjun Sharma (Primary Subject)
 - ■ Rohan Mehta (Business Contact)
 - ■ Priya Joshi (Associate)
 - ■ Vikram Patil (Person of Interest)

- ■ Neha Kulkarni (Employee)
- ■■ Arjun S. (Ambiguous Match Candidate)

3. All panels, financial transactions, DVR streams, and graph networks will immediately transform to reflect the newly selected subject.

3. Link Analysis Graph Masterclass

Canvas Interactivity & Controls:

- Pan Canvas: Click and drag any empty area of the graph canvas to move 360°.
 - Zoom: Scroll mouse wheel or use floating toolbar buttons [+] and [–].
 - Drag Nodes: Click and drag any entity node to reposition branches or clear visual overlaps.
 - Re-Center Root: Click [■] on the floating toolbar to instantly center and zoom into the root target node.
 - Layout Engines: Use top buttons to toggle between Tree (Root Top), Radial, Hierarchy, and Compact.
-

4. CCTV & DVR Surveillance Forensics Operations

1. Navigate to ■ CCTV / DVR Forensics.
 2. Filter Cameras: Use the top filter bar to filter by status (Active Recording / Archived), location (Pune / Mumbai), or type (Fixed / PTZ / ANPR).
 3. Open Camera Inspection: Click ■ OPEN CAMERA on any camera card (e.g. CAM-04) to view full resolution stream preview, metadata, and 24-hour timestamp markers.
 4. Play Video Clips: Use player controls (■, ■ 10s, ■ 10s) to inspect suspect sightings and ANPR detections.
-

5. Generating & Exporting Official Investigation Dossiers

1. Navigate to ■ Investigation Dossier.
2. Review the automatically generated person-scoped summary report.
3. Click ■■ Print / Export PDF Dossier at the top right of the dossier card.
4. Set print destination to Save as PDF, paper size to A4, and save the official document.
